

GENERAL PRESENTATION

Company: M.O.Z. Consult s.r.o.

Address: Washintonova 1599/17
110 00 Prague 1
Czech Republic

Activity : Parking consultancy

ABOUT US

From its start in 1992, the company M.O.Z. Consult s.r.o. specialises in complex solutions of parking and traffic schemes for private and public clients.

Using long-term experience and expertise we do the best not only to identify the client's problem but to understand the needs and interests and to propose solutions fitting the space, time, possibilities and sources of the client.

The quality of our work has been appreciated by many clients from local government, municipalities and business sector, having built a long-term cooperation with many of them.

Numerous analysis and projects worked out during 20 year history comprise :

- more than 150 000 on-street parking spaces
- more than 15 000 parking spaces in car parks
- more than 5 million parking vehicles counted
- projects for more than 50 clients

COMPANY ORIENTATION

Working as a specialist in parking, our work is based on wide and complex analysis of the object, cooperation and discussion with the client, resulting in parking strategy recommendations, short and long term solutions, implementation and operation scheme proposals, future development opportunities.

Scope of work :

- Parking strategy plans
- Analysis of traffic and parking in city centres
- Analysis of traffic and parking in residential housing estates
- Location studies for parking facilities
- Marketing studies for parking facilities
- Analysis of parking zones operation
- Economic and legal advisory
- Optimisation and design of parking equipments
- Optimisation and designs of static and dynamic guiding systems
